

Luis Renteria Lezano

London, ON | 548-391-6575 | luisrenterialezano@gmail.com | github.com/renteria-luis | linkedin.com/in/renteria-luis

PROFESSIONAL SUMMARY

AI/ML graduate student 4.17/4.2 GPA with an engineering degree, building end-to-end machine learning systems in Python using PyTorch and scikit-learn models deployed as Dockerized API using FastAPI microservices with CI/CD. Hands-on GenAI experience with RAG workflows using LangGraph and Hugging Face Transformers, prompt engineering and LLM frameworks.

EDUCATION

- Graduate Certificate in Artificial Intelligence and Machine Learning (Co-op)**

Dec 2026
- Fanshawe College, London, ON, Canada
 - Dean's Honour Roll. Relevant coursework: Deep Learning with PyTorch, Tensorflow, Data Mining, NLP, Data Visualization.
- Bachelor's Degree in Electronic and Telecommunications Engineering**

Aug 2015 - Aug 2020
- Catholic University of San Pablo, Arequipa, Peru
 - Awarded a full scholarship to attend an Aerospace Engineering summer program at (SJTU), China.

PROFESSIONAL EXPERIENCE

- Software Developer**

Sep 2024 - Dec 2024
- Planet Adventure Group

Peru - Remote
- Developed and maintained a Python-based reservation system managing multiple monthly bookings, automating previously manual processes and reducing booking processing time by 60% using pandas for data processing and statistical analysis.
 - Exposed booking operations through REST API endpoints and wrote automated tests, iterating in short agile cycles with Git.
- Technical Support Analyst**

Aug 2023 - Feb 2024
- Hikvision

Peru - Remote
- Deployed AI-driven image recognition and access control systems for infrastructure security projects, increasing monitoring efficiency by 40% across 20+ enterprise installations in 6 cities.
 - Configured and tested CCTV analytics software; provided technical training to clients, improving adoption by 15%, reducing support calls, and boosting brand usage.
- Renewals Specialist (Cisco & Fortinet)**

Apr 2023 - Aug 2023
- TD SYNnex

Peru - Remote
- Managed renewal cycle for Cisco and Fortinet service portfolios, collaborating with pre-sales engineering on technical solution architecture for enterprise clients and applying SQL-driven analysis to forecast renewal outcomes.
- Applications Engineer**

Sep 2021 - Mar 2023
- Bermalar Consulting (Petroperu Refinery)

Lima, Peru
- Architected real-time data acquisition pipelines for high-frequency sensor telemetry across refinery modernization projects, achieving 99.9% signal integrity for critical fault detection systems.
 - Validated control logic and sensor data through SAT/FAT protocols, focusing system reliability for production environments.

RELEVANT PROJECTS

- Graph-based AML Detection System | PyTorch Geometric, LangGraph, FastAPI, Docker**

May 2026 - Present
- <https://github.com/renteria-luis/graph-aml-detector>
- Building anti-money laundering detector using GraphSAGE over real Bitcoin transaction graph (Elliptic dataset, 200K+ nodes) with neighbor sampling.
 - Designing a LangGraph agentic system, LLM uses tools (graph centrality, typology retrieval) for explainable AML risk reports.
 - Serving risk-scoring inference through a FastAPI microservice with Pydantic validation, containerized with Docker.
- Fraud Detection Pipeline | XGBoost, Optuna, FastAPI, Docker, Hugging Face, GitHub Actions**

Dec 2025 - Mar 2026
- <https://github.com/renteria-luis/fraud-detection-v1>
- Built end-to-end fraud detection on PaySim (349:1 imbalance) using Random Forest (scikit-learn) and XGBoost, achieving 0.91 PR-AUC and 85% recall.
 - Deployed FastAPI inference service with multi-stage Docker build and CI via GitHub Actions on Hugging Face Spaces.

TECHNICAL SKILLS

- Languages:** Python, SQL
- GenAI:** LangGraph, LangChain, prompt engineering, agentic systems, Pydantic, LLM, Retrieval-Augmented Generation.
- ML/DL:** PyTorch, scikit-learn (sklearn), XGBoost, PyTorch Geometric, Hugging Face Transformers, SHAP
- MLOps/Tools:** Docker, FastAPI (microservices), GitHub Actions (CI/CD), Git, Linux, Streamlit, Azure (IaaS), API Development
- Data Analysis & Visualization:** pandas, numpy, Power BI, Excel, SciPy
