

LUIS RENTERIA

548-391-6575 | [I renterialezano@fanshaweonline.ca](mailto:renterialezano@fanshaweonline.ca) | github.com/renteria-luis | linkedin.com/in/renteria-luis

SUMMARY OF SKILLS

- **Quantitative Development:** Strong foundation in Python (OOP) and SQL for building data-driven tools. Experienced in translating complex technical logic into reliable automation scripts.
- **Technical Sales & Communication:** Proven ability to manage relationships with 20+ enterprise clients, delivering technical training and aligning sophisticated hardware/software solutions with business goals.
- **Data & Risk Modeling:** Developed end-to-end ML pipelines for Financial Risk (Fraud Detection) achieving 87% recall. Expert in preventing data leakage and ensuring signal integrity in real-time environments.
- **Financial Tooling:** Proficient in Excel/VBA for workflow optimization and automated reporting, developed during engineering coursework and professional support roles.
- **Academic Excellence:** 4.162/4.2 GPA at Fanshawe College; Dean's Honour Roll. Electronics & Telecommunications Engineering background.

EDUCATION

Graduate Certificate in Artificial Intelligence and Machine Learning (Co-op) Expected Dec. 2026
Fanshawe College, London, ON | GPA: 4.162

- Reinforced learning through self-study and independent projects, sharing work on GitHub.

B.S in Electronic & Telecommunications Engineering Aug. 2015 – Aug. 2020
Catholic University of San Pablo (UCSP), Arequipa, Peru

- Full in-person scholarship for Aerospace Engineering program at SJTU, China.

RELATED EXPERIENCE

Technical Support Analyst (Technical Sales) Aug. 2023 – Feb. 2024
Hikvision, Peru

- Managed technical relationships for 30+ enterprise projects, translating complex AI-driven image recognition data into business value for high-stakes clients.
- Delivered training and demos to 20+ regional clients, increasing brand adoption by 15% and streamlining the sales-to-implementation pipeline.

Renewals Specialist (Cisco & Fortinet) Apr. 2023 – Aug. 2023
TD SYNEX, Peru

- Managed a high-volume portfolio of Cisco and Fortinet service renewals, ensuring revenue continuity and identifying upselling opportunities.
- Collaborated with Pre-Sales Engineering teams to architect optimized security and networking solutions based on client-specific historical data.

Applications Engineer Feb. 2022 – Mar. 2023
Bermalar Consulting (Petroperu Refinery), Lima, Peru

- Designed real-time data acquisition pipelines for high-frequency sensor telemetry, ensuring 99.9% signal integrity for critical fault detection systems.
- Validated complex control logic through industry-standard SAT/FAT protocols, focusing on system reliability and risk mitigation.

QUANTITATIVE PROJECTS (GITHUB)

- Financial Fraud Detection Pipeline (Python, Scikit-learn, Docker) & Telco Churn Analysis (SQL, XGBoost)
